# Channel Health Eligibility

## Overview

The Channel Health call the Cloud 9 Partners API to get upcoming patient appointments. The API generates a 271 Transaction file and submit the file into the Cloud9 Receive Location that is configured in the BizTalk Server. If the file is processed successfully, then the Patient Insurance Policy will be updated and displayed with the new values inside the Patient Insurance View.

## Process diagram

## Process details

1. **Channel Health** call the Partners API to update the Eligibility information.
2. **Partners API** generate and send the 271 file to the SFTP site (BizTalk Receive Location).
3. **BizTalk Pipeline** archive the file to have a backup available.
4. **BizTalk Pipeline** parse the file into XML format.
5. **BizTalk Pipeline** debatch each Payment Transaction (ST/SE sections) into individual 271 messages.
6. **BizTalk Pipeline** save each 271 message into the MessageBox database.
7. **BizTalk Orchestrator** read the 271 message from the MessageBox database.
8. **BizTalk Orchestrator** get the practice name based on the File Name.
    - (e.g .\PRACTICENAME_<TEXT>.<EXTENSION>)
9. **BizTalk Orchestrator** get the database connection string for the identified Practice.
10. **BizTalk Orchestrator** map 271 message into the InsuranceInformation canonical schema.
11. **BizTalk Orchestrator** map the InsuranceInformation into the UPIP (Insurance Policy Transaction) schema.
12. **BizTalk Orchestrator** call the UpdatePatientInsurancePolicyByPipGUID Stored Procedure (Send Port).
13. **BizTalk Orchestrator** call the AddImportLog Stored Procedure (Send Port)
    a. If the eligibility update is processed successfully a new record is added into the ImportLog table.
    b. If there are errors during processing a new record is added into the ImportLog table.
14. **Cloud9 Site** display the updated eligibility information into the Insurance/Benefits view for the Patient.
15. **Event Viewer** add an error with the Source BizTalk.Process_ChannelHealth271Eligibility when there are exceptions along the process.

## BizTalk elements

| BizTalk element | Name |
|---|---|
| Type | INBOUND |
| Schema | ChannelHealth_X12_00501_271 |
| Parties | • CHANNEL HEALTH<br>• SMILE DOCTORS |
| Messages | |
| Receive Location | • RL_ChannelHealth271_FILE<br>• RL_ChannelHealth271_SFTP |
| Receive Port | • RP_ChannelHealth271 |
| Send Port | • SP_BizTalkCloud9Common_WCF<br>  • SP: BTS.GetPrcticeConfigurationByName<br>• Process_ChannelHealth_271Eligibility_UpdatePatientInsurancePolicyByPipGUIDPort<br>  • SP: BTS.UpdatePatientInsurancePolicyByPipGUID<br>• Process_ChannelHealth_271Eligibility_AddImportLogPort<br>  • SP: BTS.AddImportLog |
| Orchestrator | Process_ChannelHealth_271Eligibility |

### Mapping

These are the most important elements that are mapped from the **271 X12 EDI** format into the **InsuranceInformation canonical** format.

| EDI Position | EDI Element | InsuranceInformation Element |
|---|---|---|
| REF02 | Reference Identification | PolicyIdentifier |
| EB12 | In Plan Network Indicator | ReplaceMissingTeethFlag |
| EB12 | In Plan Network Indicator | InNetworkFlag |
| EB12 | In Plan Network Indicator | PayOutOfNetworkFlag |
| MSG01 | Free form message text | Note |
| EB07 | Benefit Amount | IndividualDeductible |
| EB07 | Benefit Amount | IndividualAnnualMax |
| EB07 | Benefit Amount | FamilyDeductible |
| EB07 | Benefit Amount | FamilyAnnualMax |
| EB07 | Benefit Amount | IndividualOrthoDeductible |
| EB07 | Benefit Amount | IndividualOrthoMax |
| EB07 | Benefit Amount | LifetimeMax |
| EB07 | Benefit Amount | IndividualOrthoMaxRemaining |
| EB07 | Benefit Amount | IndividualDeductibleRemaining |
| EB07 | Benefit Amount | IndividualAnnualMaxRemaining |
| DTP03 | Benefit Renewal Date | BenefitsRenewalDate |

These are the most important elements that are mapped from the **InsuranceInformation** format into the **Update PIP** format.

| EDI Position | InsuranceInformation Element | UPIP Element |
|---|---|---|
| REF02 | PolicyIdentifier | pipGUID |
| MSG01 | Note | pipNote |

| | | |
|---|---|---|
| EB07 | IndividualDeductible | pipIndividualDeductible |
| EB07 | IndividualAnnualMax | pipIndividualAnnualMax |
| EB07 | FamilyDeductible | pipFamilyDeductible |
| EB07 | FamilyAnnualMax | pipFamilyAnnualMax |
| EB07 | IndividualOrthoDeductible | pipIndividualOrthoDeductible |
| EB07 | IndividualOrthoMax | pipIndividualOrthoMax |
| EB07 | LifetimeMax | pipLifetimeMax |
| EB12 | ReplaceMissingTeethFlag | pipReplaceMissingTeeth |
| EB12 | InNetworkFlag | pipInNetwork |
| EB12 | PayOutOfNetworkFlag | pipPayOutOfNetwork |
| DTP03 | BenefitsRenewalDate | pipBenefitRenewal |
| EB07 | IndividualOrthoMaxRemaining | pipIndividualOrthoMaxRemaining |
| EB07 | IndividualDeductibleRemaining | pipIndividualDeductibleRemaining |
| EB07 | IndividualAnnualMaxRemaining | pipIndividualAnnualMaxRemaining |

### Testing

Check the Practice database configuration

1. **GULFCOAST** will be used as the **Practice Name** for the testing, but it can be changed for any other
2. Open **SSMS** and connect to the **BizTalkCloud9Common** database
3. Run the **Get_PracticeConfig.sql** query in **SSMS**
4. The result will display the **Practice** database that is configured.

Check the Receive Location configuration

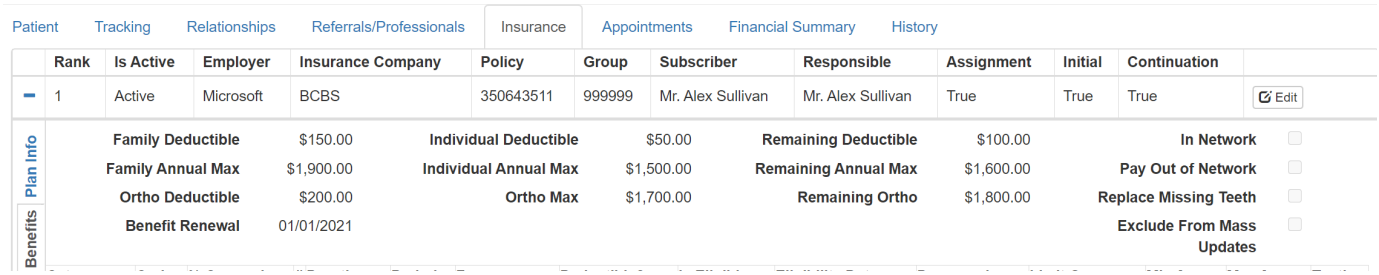

1. Open the **BizTalk Server Administration** console
2. Navigate to **Cloud.EDI** > **Receive Locations**
3. Find the Receive Location **RL_ChannelHealth271_FILE**
4. The **URI** column represents the drop location for the EDI files

Prepare the EDI file

1. Check the file name start with the Practice Name (e.g. **GULFCOAST**_<TEXT>.abc)
2. Open the Sample EDI File in a text editor
3. Open **SSMS** and connect to the **Practice** database
4. Run the **GetInfoToReplaceOn271File.sql** query in SSMS
5. Replace the results inside the 271 EDI file
6. Copy the EDI file into the Receive Location folder

Validate results

1. Open the **Cloud9** Website
2. Go to the Insurance view for the Patient
3. Select the Benefits tab
4. The Insurance benefits should be updated based on the 271 file values
