Cloud 9 Software

August 24, 2021

Timothy Gates
Chief Information Officer
Smile Doctors

Mr. Timothy Gates,

The purpose of this letter is to document the BizTalk issues Smile Doctors recently experienced, the resolution of the issue, and further assistance on monitoring the financial transactions that are processed through BizTalk.

Smile Doctors IT team identified BizTalk had stopped processing payments, updating Claim statuses, etc. that was no fault of anything the Smile Doctors team did either programmatically or through configuration of BizTalk. The issue was related to a **Microsoft BizTalk** issue that required the ***Microsoft BizTalk Server 2016 Feature Update 3 (version 3.13.349.2)*** to be installed.

In conjunction with the Cloud 9 Software team, Smile Doctors tested in Staging and then installed in Production, the updated, which resolved the issue.

Furthermore, BizTalk 360 has a monitoring feature (see attached document) that is an option for SFTP Monitoring in the BizTalk environment.

Cloud 9 Software apologizes for the issues that BizTalk had and are glad we could work with your team to resolve the issue and resume normal operations. If you have any questions, please do not hesitate to contact me.

Sincerely,

Gary Reinersman

Gary Reinersman
Chief Technology Officer
Cloud 9 Software
